<i>Physical Media (USB)</i>	\$50	

Cinematography/Editing: This includes a fully edited cinematic video of the event (30 – 75 mins), plus a 3 – 4 min highlight video of the best moments. Edited videos will be stored online in a private folder on Dropbox and can be downloaded by you at any time for up to 1 year. In addition, you can request one revision with all the changes you want after the first edit.

EXTRAS (Optional)

Drone Shots: These include aerial shots of the location, its surrounding areas, and stock footage of the city.

4K Footage: The entire event will be captured on a UHD 4K resolution camera, giving you the sharpest image quality with high dynamic range.

Motion Graphics: Flashy graphics and text overlays in the edit to spice up the video production.

Subtitles: The entire video will come with English subtitles of all the speeches. (Additional languages will cost extra).

Custom Event Website: A custom website will be designed for you that contains a gallery to display your best event photos and the event highlight video.

Super-Fast Delivery: Because of the large volume of events taking place, video edits can take as long as 4 weeks to deliver. Skip the queue and get your video in as little as 3 – 5 days after the event!

Cinematic Short Film: A 60 second romantic short film of the bride and groom with a love story produced by award winning director Bisong Taiwo.

Raw Footage: Receive a hard drive with all the unedited footage from the day.

Paperback Picture Book: A custom 20 page physical 8x10 inch picture book with selected screenshots from the video (or photos from your photographer) will be delivered to you.

Up To 5 Revisions: Request up to 5 back and forth changes to the video until it's perfect.

Physical Media (USB): A USB drive with the event video.
